

# EVA 60B

## LED BEAM

Penetrate the darkness, **EVA 60B** bring you an extraordinary air craft landing light effect, it is a super bright led moving head projecting a parallel beam from a 60W led source, and with various prism making super flowery laser light. The model is very compacted mechanical designed so very easy for transportation and installation. With efficient effects saturated colors, 11pcs gobos, rotating prism wheel with 3 factes, 8 factes prism and frost, full range dimmer and various strobe effect, it's a perfect alternative to traditional HID models in small applications.

# Specification:

## Source

- \_ Light source: Luminus CBT-90
- \_ Led life: 60.000 hours
- \_ Luminous Flux: 6500lumen, 11540lux@5m
- \_ Control: Remote on/off via DMX
- \_ Ballast: switching mode power supply

## Optical System

- \_ Beam angle: 5°

## X/Y

- \_ Pan: 360° (4.0 sec) or 540°(3.58 sec),
- \_ Tilt: 265° (2.8 sec)
- \_ 16-bit resolution
- \_ Auto repositioning

## Colors

- \_ 8 + open, indexable and bidirectional rainbow effect

## Gobos

- \_ 11 gobos + open

## Features

- \_ DMX channels: 12 channels
- \_ Color wheel: 8+open colors
- \_ Fixed gobo wheel: 11+open gobos
- \_ Full range 0-100% dimmer
- \_ Various strobe
- \_ Rotating Effect wheel with 3 factes, 8 facets prism and frost
- \_ RDM
- \_ Software upgrade via DMX
- \_ Hibernation when lost DMX for a certain of time

## Display

- \_ 24 inch clear and big Color LCD display with friendly English menu
- \_ Auto lock
- \_ Flip
- \_ Back-up communicating IC

## Power

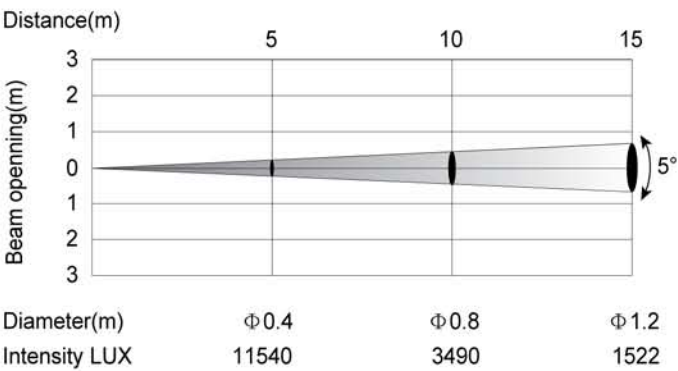

- \_ Max power consumption: 120W
- \_ Power supply: Electronic auto-ranging
- \_ Neutrik Powercon in and out
- \_ Input voltage range: 100–240V, 50-60Hz

## Dimension and Weight

- \_ Fixture: 343X250X513MM
- \_ Packing (carton): 640X420X440MM
- \_ Net Weight: 13KG
- \_ Gross Weight (carton): 16KG

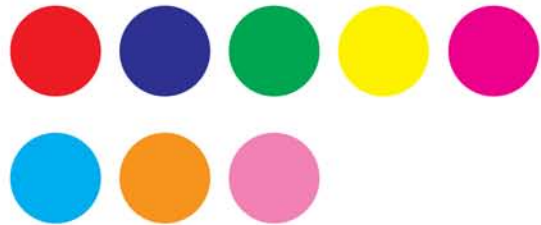

## Rigging

- \_ Mounting points: 2 ¼-turn locks
- \_ 1 x Omega brackets with ¼-turn quick locks
